SERVICES

CONSULTANCY

Light articulates Forms, Render surface texture and defines each colors in a space. We designed Lighting as the apt instrument for artistic expression to create dynamic environments. We constantly attempt to bring forth the most innovative and uncommon ideas to illuminate spaces that help us achieve our goal of always being ahead of the curve in the field of Lighting Design

DESIGNS

We Design state of the art lighting solutions for commercial and industrial applications. We engage with leading Architects, Engineers, Facility Managers, & Industry Contractors to design & supply Lighting system and product to meet customer application needs.

PRODUCTION

One of the pioneer in world leading manufacturers in the architectural lighting market, Featuring a comprehensive catalog of proven quality, High reliability and fully weatherproofed lighting fixtures

INSATALLATION

Our Engineering and installation team is well equipped to carry out our tasks with highest precision. Our years of experience in civil and engineering field help us achieve this

MAINTENANCE

By renovating your lighting technology, you save energy and thus, money. When your Lamps are upgraded or retrofitted at the same time, It is a good idea to plan on a group relamp. For Facade lighting maintenance no look further than us.
